

Molecular Processes of Photosynthesis: Volume 10 (Hardback)

Filesize: 5.29 MB

Reviews

Complete information! Its such a great study. It is probably the most amazing book i have got study. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Mr. Roger Luettgen III)

MOLECULAR PROCESSES OF PHOTOSYNTHESIS: VOLUME 10 (HARDBACK)

To read **Molecular Processes of Photosynthesis: Volume 10 (Hardback)** eBook, please refer to the link below and download the ebook or get access to additional information which might be highly relevant to MOLECULAR PROCESSES OF PHOTOSYNTHESIS: VOLUME 10 (HARDBACK) book.

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 1995. Hardback. Condition: New. Language: English . Brand New Book. Research into the basic mechanisms of photosynthesis has a long and distinguished history and has consistently been at the forefront of science. The success of this research, particularly in recent years, suggests that photosynthesis may turn out to be the first complex biological system to have its structure, function, and regulation described in rigorous chemical terms at the atomic level. It is likely that such knowledge will help us to tackle perhaps the most vital problem facing mankind, namely our need for a continuous and nonpolluting source of energy. The benefit may come by providing a blueprint for new technologies able to carry out efficient conversion of solar energy based on the principles of biological systems, and/or creating highly efficient energy crops sufficiently hardy to grow in a wide range of environments. The former is likely to involve new developments in material sciences while the latter will call on the rapidly advancing techniques of genetic engineering. The contents of this volume review some of the most important developments which are a part of the drive towards the overall goal of obtaining the complete description of the photosynthetic processes at the molecular level. The topics covered have been carefully selected and represent the wide spectrum of the subject.
