The initial stages of their attempt are chronicled in this book of comics-journalism and written observations. Stephanie McMillan, long-time activist and cartoonist, has waited her entire life for the American people to rise up. Sparked by uprisings around the world, a new movement bursts onto the national scene against a system that denies the people a decent life and puts the planet at risk. With delightful full-color drawings, interviews, dialogue, description, and insightful reflections, this book chronicles the first several months of the fragile and contradictory movement. It situates detailed personal experiences and representative narratives within the broad context of a truly unique and historical global conjuncture. This book will stand as a record of the emerging movement in accessible comics form.
