New Society Publishers. Paperback. Book Condition: new. BRAND NEW, Green Wizardry: Conservation, Solar Power, Organic Gardening, and Other Hands-On Skills from the Appropriate Tech Toolkit, John Michael Greer, Merlin, Gandalf, Voldemort--these well-known sorcerers from popular culture are famed for their amazing spells and spectacular magical powers. In ancient times, however, a wizard was actually a freelance intellectual whose main stock in trade was good advice, supported by a thorough education in agriculture, navigation, political and military science, languages, commerce, mathematics, medicine, and the natural sciences--in essence, the true Renaissance man. John Michael Greer proposes a modern mage for uncertain times; one who possesses a startling array of practical skills gleaned from the appropriate tech and organic gardening movements forged in the energy crisis of the 1970s. From the basic concepts of ecology to a plethora of practical techniques such as composting, green manure, low-tech food preservation and storage, small-scale chicken and rabbit raising, solar water heating, alternative energy sources, and more, Green Wizardry is a comprehensive manual for today's wizard-in-training. Providing a solid practical introduction to the entire appropriate tech toolkit, this book is a must-read for anyone concerned about decreasing our dependence on an overloaded industrial system and, in a world of serious energy shortages and economic troubles, making life a great deal less traumatic and more livable. John Michael Greer is a scholar of ecological history and an internationally renowned Peak Oil theorist whose blog The Archdruid Report has become one of the most widely cited online resources dealing with the future of industrial society. He is the author of more than thirty books, including The Wealth of Nature and The Long Descent.
