Excerpt: . acter of the equities rather than that of the properties which indicates the type of business organization involved. Further, the distribution of the total capital among the different classes of investors can be determined from a statement of equities and constitutes a most significant basis for judging the financial condition of the enterprise. In other words, if one knows the total of a company s capital and the dispersion thereof between classes of equities he has information of possibly more vital significance than would be represented by a statement of the distribution of the capital among specific kinds of objective structures, commodities, and rights. Both classes are of course necessary for any adequate expression of the financial condition of an enterprise. THE EQUATION The property and equity columns given above, which represent the financial condition of the newly organized X Co. may be juxtaposed in various ways. A tabulation in parallelcolumn form is convenient. The X Co. Properties Land \$100,000 Buildings 200,000 Equipment 100,000 Patents 100,000 Organization Costs . 25,000 Materials 100,000 Cash 75.000 Total \$700,000 Equities Capital Stock-Common \$200,000 Capital Stock-Preferred. 200,000 Mortgage Bonds 100,000 Debenture Bonds 100,000 Notes Payable 100,000 Total \$700,000 Such a parallel-column arrangement, it should be emphasized, is a purely arbitrary procedure. A great many methods of designating and separating these groups by symbols, colors, spatial arrangement, etc., could readily be suggested. The essential thing is to have all the property and equity facts presented in the fundamental...
