Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from *Mechanics of Wind Erosion* Differences in soil erodibility suggest that properties inherent in the soil and those brought about by land use-especially cultivation and other man-made disturbances - play an important part in the wind erosion process. Wind erosion is dependent directly on the physical character and condition of the soil. Only dry soils are moved. Wet or damp soils are not appreciably affected. The structure of the soil in an air-dry state is, therefore, a much more reliable index of erodibility than the structure in a wet state. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition.
