Effective and efficient use of resources requires careful, flexible planning. In this way, the overall goal of hazard abatement and employee protection is best served. This instruction provides current policy, information and guidance to Occupational Safety and Health Administration (OSHA) national, regional, and area offices; industry parties; OSHA State programs and federal agencies concerning OSHA s authority over persons working on vessels (inspected vessels, uninspected vessels, and commercial uninspected fishing industry vessels) and facilities on or adjacent to U.S. navigable waters and the Outer Continental Shelf (OCS).
