Excerpt: . . . maintenance and storage programs, while the Marine Corps generally 15 lacks requirements for collection of corrosion-related data. For example, the Armys Corrosion Prevention and Control Program regulation includes a requirement for a corrosion-related survey of all divisions and separate 16 combat brigades to be conducted at least every 4 years. In addition, Army policy on reporting equipment quality deficiencies includes a 17 requirement to report problems that are corrosion related. The Marine Corps, on the other hand, does not require the collection of corrosion information for all equipment, but believes it to be beneficial. The mission of the Marine Corps Corrosion Prevention and Control Program is to reduce maintenance requirements and costs associated with corrosion, and the program seeks to identify and assess current and projected corrosion problems for all tactical ground and ground support equipment. Marine Corps officials said that the desire for the collection of corrosion information applies to all Marine Corps activities, including prepositioning programs, but acknowledge that data are not collected on prepositioned assets because they have...
